

Money Worksheets - Canadian Coins

Counting money worksheets for Canadian Currency

Let's include a dime (a ten cent coin) to Canadian Coins. Below count all the pennies, nickels and dimes, write the money using the ¢ (cent symbol) and the \$ (dollar) sign. One of the example is solved as an explanation.

Coins	Cents (¢)	Dollars (\$)
<p>Remember, a dime is equal to ten pennies. A dime is also equal to two nickels.</p> 	10	0.10
	16	0.16
