

Money Worksheets - Canadian Coins

Counting money worksheets for Canadian Currency

The next coin is a quarter in Canadian Coins. Count all the pennies, nickels, dimes and quarters, write the money using the ¢ (cent symbol) and the \$ (dollar) sign. One of the example is solved as an explanation.

Coins	Cents (¢)	Dollars (\$)
<p>Remember :</p> <p>1 quarter = 25 pennies</p> <p>1 quarter = 5 nickels</p> <p>1 quarter = 2 times 1 nickel</p> <div style="text-align: right; margin-top: 10px;">  </div>	25	0.25
