

Place Value To Tens Worksheet - 6

[Place value worksheets](#)

After understanding the place value to tens using ones and sticks, the next level is to write numbers to 99 in words, place value and in expanded form. In this worksheet we will practice writing place value of digit in a given number (from one to ninety nine).

Problem: Fill in the columns of the given harts as indicated in the heading of each column. You are given the number and you need to write this number in words, the place value of both the digits and the number in expanded form.

<i>Number</i>	<i>Number in words</i>	<i>Place value of digits</i>	<i>Expanded form</i>
28	Twenty Eight	2tens, 8ones	20 + 8
