

Rounding numbers base builder worksheet - 2

Worksheets to make rounding numbers easy

In this activity kids will be given a number and they have to pick two nearest tens to that number. This worksheet contains multiple choice questions. First problem is done as an example and 2nd grade math students should be able to finish the rest of the problems.

Circle the two nearest tens to the given number.

Hint: One of the tens is less than the given number and the other one is greater. Try your best to pick the right choice.

1) Pick two nearest tens to 559

- A. 570 and 590
- B. 810 and 820
- C. 550 and 565
- D. 550 and 560

Hint: Look for ones and tens digits only and underline them. As I underlined 59 in 559. Now you know that 59 is between 50 & 60.

Answer is d) 550 and 560

2) Pick two nearest tens to 156

- A. 150 and 160
- B. 150 and 170
- C. 100 and 170
- D. 1150 and 1160

3) Pick two nearest tens to 606

- A. 601 and 610
- B. 600 and 610
- C. 610 and 620
- D. 600 and 620

4) Pick two nearest tens to 576

- A. 550 and 560
- B. 500 and 580
- C. 570 and 580
- D. 970 and 980

5) Pick two nearest tens to 222

- A. 210 and 220
- B. 320 and 330
- C. 420 and 430
- D. 220 and 230

6) Pick two nearest tens to 915

- A. 710 and 720
- B. 910 and 920
- C. 810 and 920
- D. 910 and 1000

7) Pick two nearest tens to 118

- A. 100 and 110
- B. 110 and 130
- C. 210 and 220
- D. 110 and 120

8) Pick two nearest tens to 465

- A. 460 and 470
- B. 420 and 450
- C. 760 and 770
- D. 460 and 470

9) Pick two nearest tens to 333

- A. 330 and 430
- B. 310 and 320
- C. 330 and 340
- D. 630 and 640

10) Pick two nearest tens to 195

- A. 190 and 200
- B. 180 and 190
- C. 110 and 200
- D. 200 and 210
