

Rounding Numbers To Nearest Tens Worksheet - 1

Rounding Numbers

Tips for rounding numbers to nearest tens

1. To round a number to nearest tens, underline the ones digit of the number.
2. If the ones digit is 1, 2, 3 or 4; we round the number down by keeping the tens digit same and changing the ones digit to zero.
3. If the ones digit is 5, 6, 7, 8 or 9; we need to round the number up by adding "1" to tens digit and changing ones digit to zero.

Use the tips above to round the following numbers to nearest tens.

| | |
|------------|------------|
| 1. 43 | 2. 38 |
| 3. 25 | 4. 17 |
| 5. 52 | 6. 91 |
| 7. 66 | 8. 40 |
| 9. 82 | 10. 83 |
| 11. 78 | 12. 87 |
| 13. 95 | 14. 39 |
| 15. 102 | 16. 111 |
| 17. 170 | 18. 444 |
| 19. 321 | 20. 333 |
