

## Two Dimensional Geometric Shapes

### Vocabulary - Two dimensional geometric shapes for 2nd grade math

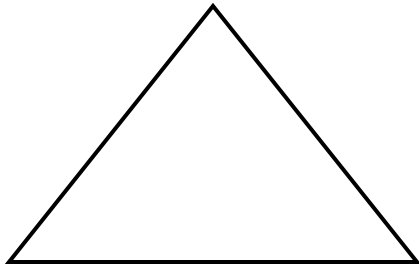

Below are the basic two dimensional geometric shapes. This worksheet is only to get kids familiar with these shapes, so all of the shapes and their names are given. Kids need to know about the names and the name spellings.

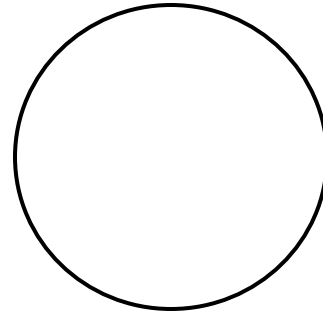

**Rectangle**

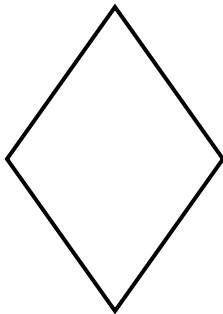

**Square**

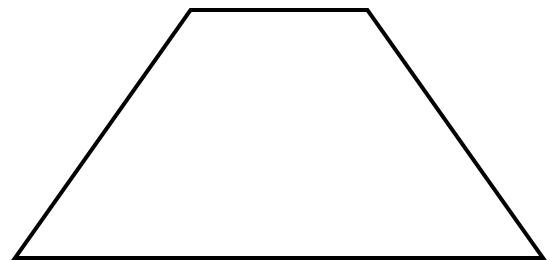

**Triangle**

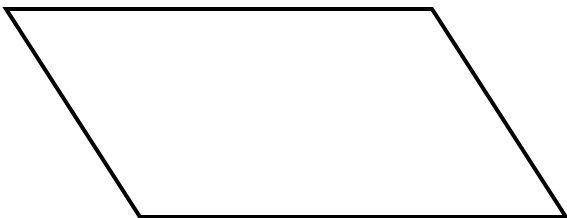

**Circle**

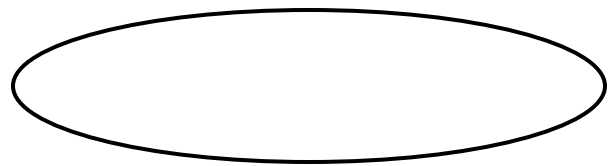

**Diamond**

**Trapezoid**

**Parallelogram**

**Oval**
